PROFESSIONAL SUMMARY

Web Developer with hands-on experience building and enhancing responsive e-commerce, corporate and marketing websites using Shopify Liquid, Framer, WordPress, HTML, CSS and JavaScript. Experienced in developing reusable theme sections, product and collection templates, CMS-driven content, responsive navigation and editor-configurable components. Proven ability to take ownership of delayed or inherited projects, resolve outstanding development issues and bring websites through final review and launch preparation. Skilled in managing concurrent client projects, troubleshooting production issues and performing cross-device quality assurance using Git-based development workflows.

CORE SKILLS

E-commerce & CMS: Shopify, Shopify Liquid, WordPress (Elementor, Breakdance), Framer, Wix CMS
Front End: HTML5, CSS3, JavaScript, TypeScript, React, Next.js, Tailwind CSS, Responsive Web Design
Shopify Development: Theme Customization, Sections and Blocks, Theme Editor Settings, Product Templates, Collection Templates, Metafields, Filters, Product Data, Shopify POS
Back End & Mobile: PHP, Laravel, MySQL, Firebase, Flutter
Tools & Practices: Git, GitHub, VS Code, Cross-Browser Testing, Responsive QA, Debugging, Staging and Production Workflows, SEO Fundamentals, AI-Assisted Development Tools

WORK EXPERIENCE

Management Trainee (Web Development), GoViral Digital Sdn Bhd | Jun 2026 – Present **Petaling Jaya, Selangor**

- Build responsive client websites across Shopify, Framer, WordPress and custom HTML, CSS and JavaScript environments.
- Translate approved designs and brand guidelines into reusable sections, responsive layouts, interactive navigation and product templates.
- Configure Shopify Liquid themes, editor settings, collections, metafields and filters while keeping development changes isolated from live storefronts.
- Took ownership of inherited projects, resolving long-standing issues and advancing three websites to final client review and launch preparation.
- Completed and launched one corporate website within a month of taking over the project while managing concurrent projects and cross-device quality assurance.

Junior Web Developer, Construction Professionals Malaysia | Jan 2026 – May 2026 **Sungai Petani, Kedah**

- Developed and maintained responsive WordPress websites using Breakdance Builder, including new pages, UI improvements, SEO fundamentals and performance refinements.
- Recovered compromised WordPress installations by removing injected scripts, restoring clean backups and strengthening security after phishing redirects.
- Maintained a Flutter mobile application through UI enhancements, content updates, bug fixes, functional testing and release support for Android and iOS.

Program Executive (Digital Media), Mega Jati Academy Sdn Bhd | May 2025 – Jan 2026 **Shah Alam, Selangor**

- Managed the company's Wix website and produced digital content for training programmes, webinars and corporate events.
- Maintained a Flutter mobile application through content updates, functional testing and troubleshooting.
- Coordinated programme requirements, HRD Corp and CIDB-related submissions, registration materials and participant communications.

Shopify Web Developer Intern, Homy Villa (Borneo) Sdn Bhd | Oct 2024 – Jan 2025 **Kuala Lumpur**

- Customized Shopify Plus themes using Liquid, HTML, CSS and JavaScript while supporting product updates, content management and responsive storefront improvements.
- Assisted with Shopify POS, B2B pricing workflows, technical troubleshooting and marketplace operations across Shopify, Shopee and Lazada.
- Maintained Shopify and WordPress Elementor websites for multiple retail locations and supported cross-device storefront testing.

SELECTED WEBSITE PROJECTS

VASTIQ Solutions – Corporate Website Redesign | HTML, CSS, JavaScript

- Took ownership of a long-delayed project from a previous staff member and completed the remaining development work within one month.
- Redesigned and delivered a responsive multi-page corporate website covering AI solutions, governance, robotics, company projects and events.
- Resolved outstanding content, navigation and responsive issues, secured final client approval and successfully launched the website on the client's official domain.

Live Website: https://www.vastiqsolutions.com/

MyPATH – Recruitment & Employment Website | HTML, CSS, JavaScript, Laravel, MySQL

- Developed and launched a responsive recruitment website connecting job seekers from Sabah and Sarawak with employment opportunities in Peninsular Malaysia.
- Built structured job listings, testimonials, recruitment information, recruiter profiles and direct WhatsApp enquiry pathways to improve candidate engagement.
- Developed a Laravel and MySQL content management system that enables administrators to create, update and manage job listings and candidate testimonials.

Live Website: https://www.borneoprogram.com/

Janine Kuala Lumpur – E-commerce Redesign | Shopify Liquid, Framer

- Redesigned the e-commerce experience based on a premium retail design system, improving navigation, content structure and responsive presentation.
- Developed reusable product and collection templates, mega navigation, filtering, metafield-driven content and editor-configurable Shopify sections within an unpublished theme.

Staging Link: https://blushing-lifecycle-383741.framer.app/

Pferd Equestrian – Shopify Storefront Development | Shopify Liquid

- Developed and customized a responsive Shopify storefront according to the client's branding, content requirements and visual direction.
- Created reusable product, service and campaign pages with editor-configurable typography, colours, spacing, images and responsive settings.

Staging Link: https://3vbjex-rr.myshopify.com/

Why Travel & Tours – Marketing Website Development | Framer, React, TypeScript

- Completed and deployed the responsive multi-page Why Travel & Tours website using Framer within two months, following the client's branding, visual references and content requirements.
- Built custom interactions including fullscreen navigation, animated transitions, reusable CTA sections and enquiry forms across desktop, tablet and mobile layouts.

Live Website: https://whytraveltour.com/

Personal Portfolio Website | Next.js, React, TypeScript, Tailwind CSS

- Designed and developed a responsive portfolio showcasing professional experience, technical skills and selected client projects.
- Built reusable front-end components and a structured codebase using Next.js, React, TypeScript and Tailwind CSS.
- Managed source code and version history using Git and GitHub.
